Does the region have the housing stock needed to accommodate changing needs?
Communities are concerned about the effect of new housing on schools, although 72% of communities experienced a decline in school enrollment over the past 10 years.

Housing growth has disparate impact on municipal school costs and deserves nuanced attention.

MAPC released an important analysis in October 2017 on this topic: report “The Waning Influence of Housing Production on Public School Enrollment in Massachusetts”.
Over **2/3 of employers** claim home prices and rental costs have affected their ability to recruit **qualified candidates**.

"**High housing costs** and **housing availability** are a **major concern** of businesses looking to expand or relocate in Massachusetts."

Northeastern University survey of businesses in Greater Boston, April 2017

"**The things that keep me up at night about other tech companies considering Boston are transportation and housing [challenges], less so about a fight for talent.**"

HubSpot chief people officer as quoted in the Boston Globe, 9/21/2017

**Business Community support for Governor Baker’s Housing Choice legislation and program, March 2018:**

**Boston Medical Center, Manulife Financial (John Hancock), iBoss, Dell, Mass Competitive Partnership, General Dynamics, McKinsey Consulting, NAIOP, Rockland Trust Bank, South Shore Chamber**, and more!
Some municipalities demonstrate local innovation and leadership that will be needed to successfully address the Commonwealth’s housing supply challenge. The Housing Choice Initiative will build on those efforts.

**Weymouth**

HOME funds leveraged funding for 6 unit of housing for Veterans at 741 Main Street and medium density at

*Photo source: weymouth.wickedlocal.com*

Planning and capacity for Housing: Towns of **Weymouth, Rockland, Marshfield** recently adopted Housing Production Plans, **Marshfield** has a Housing Coordinator, **Rockland** adopted a 40R district.

**Coohasset** and **Duxbury** have seen new multi family projects approved.

*Photo source: MAPC*
POSITIVE STEPS: LOCAL GOVERNMENTS LEADING

Some municipalities demonstrate local innovation and leadership that will be needed to successfully address the Commonwealth’s housing supply challenge. The Housing Choice Initiative will build on those efforts.

**Hingham** has seen new multi family residential development at Hingham Shipyard

In **Braintree**, Weymouth Landing is an example of Transit Oriented Development (TOD) located adjacent to a Commuter Rail station

*Photo source: MAPC*

**Weymouth, Rockland and Abington** are home to the Union Point development which has a range of housing choices, including cottages (left) and multifamily (right) *Photo source: MAPC*
Some municipalities demonstrate local innovation and leadership that will be needed to successfully address the Commonwealth’s housing supply challenge. The Housing Choice Initiative will build on those efforts.

Chelmsford created a new zoning bylaw that allows multifamily near employment. The Planning Board recently approved 168 units through Special Permits which provides the Town with an alternative to 40B.

Acton, Bedford, Burlington, Concord, Lexington, Sudbury, Wayland, and Weston coordinate “shared housing services” for efficient staff resources.

Westford donated land for 100% affordable projects, Affordable Housing Trust loans to mixed income projects, Mill Conversion Overlay and Senior Residential District in zoning bylaw.
The Housing Choice Initiative has several elements that create a powerful suite of options for local governments to promote additional housing.

1. Housing Choice Designation
2. Small Town Capital Grants (less than 7,000 population)
3. Coordinated Technical Assistance
4. Legislation
5. Housing Goal: 135,000 new units by 2025
Exclusive access to new Housing Choice Capital Grants.
Projects do NOT need to be directly tied to a housing project!

Examples of capital projects:

a) **Acquisition costs** - land, buildings and other capital assets;
b) New building **construction** or capital **improvements to existing infrastructure**;
c) **Infrastructure** such as roads, sidewalks and curbs, bridges, tunnels, electrical lines, water lines, and sewer lines;
d) **Acquiring long-term easements** over real property;
e) **Vehicles**, machinery, and heavy equipment, or major building fixtures;
f) Major **renovations to parks and recreational fields**;
g) **Engineering or design work** required for a capital project; and research and feasibility studies;
h) Certain **computer equipment and technology**.
### REWARDS: PREFERENCE FOR STATE GRANTS

Proposed grant programs that would give preference to Housing Choice municipalities

How do Cities/Towns qualify as a Housing Choice Community?

**Last 5 years**

1. **High Production**  Greater than 5% increase in net new housing units or 500 units;
   
   or

2. **Production & Planning**  Greater than 3% increase in net new housing units or 300 units and 4 out of 9 best practices

   **MUST HAVE** Community Compact and no moratorium on new housing

   - Preferential access or increased subsidy for Commonwealth Grant Programs
   - Access to new grant program exclusively for Housing Choice Communities
   - Continue to support sustainable development in order to maintain designation and compete for Housing Choice Grants
   - Access technical assistance to maintain housing production
   - Designation lasts for 2 years-

**Community has not yet achieved Housing Choice Designation?**

- Apply for technical assistance to increase housing production
- Use lower voting threshold in legislation to pass local land-use laws that encourage sustainable growth
- Apply for housing choice designation once permitting activity increases
Production & Planning threshold (3% or 300 units) must also have 4 of the following 9 best practices, one of which must be related to affordable housing.

**Best Practices -**

1. Designated local resources for housing such as established an Affordable Housing Trust, donated land, or spent substantial CPC funds for community housing [Affordable Category]
2. Selected a housing best practice as part of its Community Compact
3. Have achieved a minimum of 10% of housing stock as affordable according to the subsidized housing inventory [Affordable Category]
4. Have adopted zoning that allows mixed use or cluster development by right (or can demonstrate a pattern of approving such developments)
5. Have zoning that allows for accessory dwelling units by right (or can demonstrate a pattern of approving ADUs)

**Best Practices (continued )**

6. Have zoning that provides for inclusionary housing with reasonable increases in density [Affordable Category]
7. Have an approved 40R district, participate in the Housing Development Incentive Program or have adopted an Urban Center Housing Tax Increment Financing district [Affordable Category]
8. Have at least one zoning district that allows multifamily by right with capacity to add units and that allows for family housing
9. Have a certified housing Production Plan [Affordable Category]
The first year Small Municipalities Housing Choice Grant will be for an estimated $1 million in capital grant monies and increasing with revenue growth thereafter.

In addition to the dedicated funds for small communities, they may choose to seek Housing Choice designation and to compete for the Housing Choice Grant funds.

Towns across the Commonwealth will benefit from Housing Choice funding.

Small towns are also eligible for the MassHousing 40B Planning for Production grants.
The Housing Choice Initiative will align resources and data so that there is a clear, single point of entry for communities seeking to increase sustainable housing production.

• Building on the success of the Open for Business Initiative, the Housing Choice agenda will **integrate existing resources under a new Technical Assistance initiative** so that all existing programs are working in alignment.

• DHCD’s Housing Choice Program Director will promote planning and housing related technical assistance across multiple agencies -- including public and quasi-public agencies.
MassHousing is committing $2 million in “Planning for Production” grant program to assist local governments to better plan for housing.

- MassHousing funds will assist municipalities to progress toward, achieve and maintain the 10% affordability goal, by building municipal capacity to plan for housing.
- MassHousing will provide $2 million in local technical assistance for: rezoning, planning infrastructure for housing growth, building community development capacity, and promoting data transparency.
- By helping communities progress toward, achieve and maintain the 10% affordable housing goal, the program will empower communities to better control their own development destinies.
Massachusetts is an outlier for requiring a supermajority vote to amend, modify, or adopt zoning ordinances or bylaws.

- Massachusetts is one of only 10 states in the country that requires a supermajority to change local zoning. It is the only state in New England with a supermajority requirement.
- This causes problems when local governments want to change zoning.
- Especially in Towns, where Town Meeting must approve zoning amendments, the 2/3 voting threshold can be a barrier to new zoning that would allow for increased housing production.
Supermajority voting threshold has impeded efforts by municipalities to zone for housing production in locations that serve municipal goals, including smart growth.

- **40R “smart growth” overlay districts**
  - In at least 4 municipalities, following a lengthy planning process and DHCD approval of a proposed overlay district, the by-law received majority approval but fell short of two-thirds approval.

- **Town Meeting challenges**
  - In one recent example, after a 4-year community planning process and adoption of master plan, the Planning Board and Selectmen voted unanimously to adopt new mixed-use zoning in the town center.
  - 62% of town meeting members voted in favor of the rezoning; it failed to garner the required supermajority by 19 votes (out of 449 cast).
The proposed legislation would change G.L. c. 40A and G.L. c. 40R to reduce the required vote from 2/3 “supermajority” to a simple majority for certain zoning changes that promote housing growth. This change makes Massachusetts more consistent with current practice in most states, including other New England states. **Zoning changes that promote best practices that would qualify for the simple majority threshold include:**

- Creating mixed-use, multi-family, starter homes and/or adopting 40R “Smart Growth” zoning in town centers and near transit
- Clustering new homes to permanently preserve open space and protect natural resources
- Reducing parking requirements and reducing dimensional requirements such as minimum lot sizes
- Allowing for transfer of development rights (TDR) zoning and natural resource protection zoning
- Allowing for increased density through a Special Permit process promoting more flexible development
- Allowing accessory dwelling units or “in-law” apartments

**Goal:** Lower the local voting threshold to a simple majority for adoption of zoning practices that promote new housing and sustainable growth.
Major milestones

December 2017
- Announce Housing Choice Initiative
- Governor filed *An Act to Promote Housing Choices* legislation (H. 4075)
- $2 million new MassHousing Technical Assistance “Planning for Production” grants
- Contract with regional planning agencies on new DLTA round, which includes support for the Housing Choice Initiative

January to April 2018
- Open applications for Housing Choice Community designation
- Hearing on H. 4075, at Joint Committee on Housing

May to June 2018
- Announce Housing Choice Communities
- Incorporate HCC into multiple grant programs and new MassDOT capital plan
- Open Housing Choice Capital Grant Program and Small Town Grant Program applications

Fall 2018
- Announce Housing Choice and Small Town Capital grant recipients
www.mass.gov/housingchoice
