

ERU Calculations

Table 1: Determining the Residential Metric

| Land Use Classification | Number of Parcels | Percent Impervious Surface (Total) | Average Percent Impervious Surface | ERU Equivalent |
|-------------------------|-------------------|------------------------------------|------------------------------------|----------------|
| Residential | | | | |
| Detached Single Family | | | | |

Table 2: Determining Non-Single Family Building Metrics

| Land Use Classification | Number of Parcels | Impervious Surface Area (Total) | Average Percent Impervious Surface Area | ERU Equivalent |
|--|-------------------|---------------------------------|---|----------------|
| Residential | | | | |
| Detached Multi-Family, (e.g. Duplex, Triplex etc.) | | | | |
| Multi-Family | | | | |
| Non-Residential | | | | |
| Commercial | | | | |
| Industrial | | | | |

Graduated Fee Structure

| Property Classification | Number of Units in Town | Average Impervious Surface Area | ERU Value | Annual Total (\$) |
|--|-------------------------|---------------------------------|-----------|-------------------|
| Residential | | | | |
| Detached Single Family | | | | |
| Detached Multi-Family, (e.g. Duplex, Triplex etc.) | | | | |
| Multi-Family | | | | |
| Non-Residential | | | | |
| Commercial | | | | |
| Industrial | | | | |
| Total Revenue Raised | | | | |

Net Operating Income under a Graduated Fee Structure (\$)
