MAGIC “Making the Connections”

Information Session
Tuesday, July 23, 2019

Sudbury Town Hall
Event Purpose

Inform interested agencies and municipalities of the Making the Connections program and develop a path forward to create transportation pilots

Event Objectives

- Ensure all parties have an understanding of the program
- Develop parameters for various pilots
- Determine interest in participation
- Lay out next steps, including issues for clarification and creation of steering committee

Introductions

Name, Town/Agency

Question

What is the biggest transportation challenge you see in your community today?
Overview of Making the Connections Program

Making the Connections focuses on seniors, people with disabilities, financially vulnerable residents, and veterans, with the objective of providing on-demand transportation services to health and community resources as well as economic opportunities.

While each community offers some variety of on-demand paratransit, and some offer general public vans or commuter shuttles, there are times when this service does not cover all needs for transportation. It is these unmet needs that pilot service through Making the Connections will attempt to meet.

Data from community pilots will be used to (1) explore the future applicability of shared microtransit platforms (optimizing transit programs and regional cooperation in the larger MAGIC subregion of the MAPC), and (2) ensure the sustainability and continuous improvement of regional transportation, particularly to our most needy residents.
What's been done so far?

Through 2017:
- MAGIC livability, needs assessment exploration

2017:
- MAGIC admission in AARP/WHO age-friendly network

2018:
- Sudbury et al. taxi, bus, livery application for MAPC technical assistance

June 2018:
- MAGIC commits $10K to evaluate Microtransit options

Winter 2018/2019:
- Microtransit RFI

June 2019:
- MAGIC commits $10K for pilots

Spring 2019:
- CCC grant award for on-demand transit pilot program ($80K)
How the Program Works

• TASK 1: COORDINATION
  - Municipalities enter MOU for duration of pilot
  - Steering committee established; committee outlines basic parameters, including common data needs
  - Program Manager hired
  - Municipalities define riders/eligibility and processes for registration, etc.
  - Clarify Plan-Do-Study-Act continuous quality improvement approach to pilots

• TASK 2: PROCUREMENT
  - Vendors identified (ride-hailing, taxi, etc.)
  - Contracts entered with vendors
  - Marketing, outreach established

• TASK 3: IMPLEMENT AND MONITOR
  - Launch pilots across region
  - Collect minimum consistent data set
  - PLAN/DO/STUDY/ACT
  - Steering Committee and Program Manager meet regularly (virtual, F2F, individually, collectively)

• TASK 4: ASSESS PERFORMANCE AND ID FUTURE OPTIONS
  - What are strategies for sustainable transportation?
  - What are best practices for region?
  - Prepare report for CCC
Carlisle Lyft Partnership

Lessons learned from Carlisle Council on Aging partnership with Lyft
Making the Connections: Breakout groups

First, a short break (5 minutes)

Breakout Groups:

At your table, note your topic and address:

What areas need additional clarification?

Any ideas to address or resolve?
Next Steps

- Hire Program Manager
- Steering Committee
- Sign MOUs
- Procure vendors
- Launch pilots in Fall 2019 (one-year pilot)
- Next event/first steering committee
  - August
  - Will allow remote participation (WebEx)
Something to Consider...

What long-term goal are you looking to achieve from this program?

*Please let us know your thoughts at our next gathering...*

### Data Collection Options for Pilots

- Trip ID
- Request date
- Request time
- Actual pickup date (if different)
- Actual pickup time (if different)
- Drop off date
- Drop off time
- Rider first name
- Rider last name
- Rider email
- Service (e.g., WAV, van pool)
- City/town
- Distance
- Duration
- Fare ($)

- Ride-hail service/technology fee (including applicable tax)
- Total charge (fare plus fee); no tips
- Pickup address
- Drop-off address
- Expense memo (purpose of ride)
- Group (agency subsidizing/vetting request)

The information could also include short descriptive notes for every ride. These allow fuller delineation of usage, and advanced planning by those designing an initiative could provide the ability to search on key words, etc.

Reports to involved agencies could be created showing, for example, monthly total cost, number of rides, distance (miles); as well as average cost, budget, and monies remaining. Total system data reports may be available.
