How can we help? Let us know.

The Town of Norwell is creating a vision for the Accord Industrial Park and Queen Anne's Plaza. Join us for the **second** of three public meetings to **hear about different zoning scenarios** and impact analyses crafted by MAPC based on your feedback in the September meeting. We'll be asking you which scenario you feel will best meet Norwell's needs.

Norwell has a huge opportunity to grow its commercial tax base, diversify its housing supply, and leverage the development occurring in neighboring communities to benefit the town—but we need your participation!

You don't have to know a lot—or anything—about zoning. You bring your ideas and we'll bring the information!

**Questions?**
