

MAPC VENDOR GUIDE

For the MassDOT Winter Shared Streets and Spaces Grant Program

As cities and towns quickly implement or expand improvements to sidewalks, curbs, streets, on-street parking spaces and off-street parking lots in support of public health, safe mobility, and renewed commerce in their communities, outlined below is a list of vendors from which materials to implement these programs can be purchased or rented. The listed vendors may or may not be under a Massachusetts Statewide Contract administered by the Operational Services Division. Neither the Metropolitan Area Planning Council nor the Massachusetts Department of Transportation endorse any vendor. This list is provided as a convenience and it is not represented to be a complete of all vendors that provide the materials. A link to the full grant program description can be found [here](#).

Please note that if you are a municipal entity looking to procure these materials, the Massachusetts Uniform Procurement Act, MGL c. 30B, §8, provides that in an emergency (such as the current State of Emergency due to the COVID-19 pandemic) goods and services can be sourced without traditional procurement requirements. For further information on Emergency Procurement, please see the Memorandum attached to this document.

The following matrix includes information on sources compiled by the Metropolitan Area Planning Council. Cost estimates will vary due to delivery location, amount of materials, and length of rental. The cost estimates provided below are approximate.

If you have any questions about this guide please contact Alison Felix, Senior Transportation Planner, at afelix@mapc.org.

MEMO TO: Municipal Representatives
FROM: Marjorie Weinberger, General Counsel, MAPC
DATE: November 13, 2020
RE: Emergency Procurement

The question has been posed as to whether emergency procurement, pursuant to MGL c. 30B, can be used to make purchases for COVID-19 related goods or services. In so long as the purchase is essential to prevent health or safety injuries or damages to persons or property, emergency procurement is an appropriate purchasing method.

The Massachusetts Uniform Procurement Act, MGL c. 30B, §8, provides that in an emergency, goods and services can be sourced without traditional procurement requirements.

MGL c. 30B §8: – Emergency procurements

Whenever the time required to comply with a requirement of this chapter would endanger the health or safety of the people or their property a procurement officer may make an emergency procurement without following that requirement. An emergency procurement shall be limited to only supplies or services necessary to meet the emergency and shall conform to the requirements of this chapter to the extent practicable under the circumstances. The procurement officer shall make a record of each emergency as soon after the procurement as practicable, specifying each contractor's name, the amount and the type of each contract, a listing of the supply or service provided under each contract, and the basis for determining the need for an emergency procurement.

The procurement officer shall submit a copy of this record at the earliest possible time to the state secretary for placement in any publication established by the state secretary for the advertisement of procurements.

The Massachusetts Inspector General has, during the Massachusetts State of Emergency, opined that the use of emergency procurement would be appropriate for municipal buyers to purchase COVID-19 related goods and/or services, where to do so would prevent harm to persons or property. This opinion was provided in an FAQ on the Inspector General's website, which link is:

<https://www.mass.gov/info-details/covid-19-and-chapter-30b-faq-your-procurement-questions-answered>

Municipal buyers are encouraged to seek the support of their legal and procurement representatives to assist in emergency procurement purchasing.

The Inspector General will be offering a webinar on emergency procurement on December 9th to provide. Information on the webinar is attached to the memo on the following page.

We will be presenting a one-hour online live webinar about Emergency Procurement on Wednesday, December 9, 2020.

This webinar will help you answer questions such as "What do I do when I need to get hand sanitizer for my school district – tomorrow?" " What do I do when the water heater for some of our housing units fails or pipes burst in town hall?" In cases like this you need to act quickly AND act legally.

We are offering a 60-minute live online webinar to discuss how to deal with emergencies while complying with our procurement laws. Please join us. If the webinar does not answer all of your questions, our MCPPO staff members will also be available to answer your questions afterwards.

What: Emergency Procurement

Where: Online platform-Blackboard®

When: Wednesday, December 9, 2020

Time: 2:00 p.m. – 3:00 p.m.

Credits: 1 credit

Cost: \$29

If you are interested in attending, you may register [online](#) or download, complete and mail in the registration form that can be found at <https://www.mass.gov/how-to/register-for-an-mcpo-class> along with your payment. If you have any questions, please contact us at MA-IGO-Training@state.ma.us.
