

DOG POOP BILL INSERT, 3.5"X8.5", 4 COLOR
For display purposes. Original artwork on next page.

**Don't
be a
poop!**

**Keep Pet Waste
Off of Our Streets
and Out of Our Water!**

Dogs might be cute, but dog poop is gross. It's not just messy; it's loaded with **E. coli bacteria and other pathogens** that make us really sick.

When dog poop gets left on streets, sidewalks or lawns, **it gets washed into storm drains and dumped right in our rivers, streams and ponds.**

When bacteria and pathogens get into our waterways, they become unsafe for kids, pets, fishing, boating and wildlife.

Your actions make a big difference in keeping our water ways healthy. **Always carry a bag when you walk your dog, and dispose of poop in a trash can—never in a stormdrain.**

Thanks for doing your part!
