WHY IT MATTERS:

Pollution and Common Courtesy

Sure, we all know that it's rude and disgusting to not clean up after your dog, but did you realize that dog waste pollutes our lakes and streams?

Dog poop left on the ground does not fertilize the ground or just disappear. It is picked up by storm water runoff and carried into our local streams, ponds, and lakes. This water is not treated or cleaned before it enters the water bodies, so pet waste is a significant contributor to water pollution.

By signing this pledge, you are helping to keep the Town of Framingham's waters Clean!

I pledge to always clean up after my dog.

I pledge to carry pet waste bags on our regular walks.

I pledge to encourage other dog owners to clean up after their pets.

I pledge to spread the word to "Scoop the Poop & Don't Pollute!"
