

The Executive Office of Health and Human Services (EOHHS) is initiating an intensive effort to redesign the front door of behavioral health. Together, we will imagine a system that presents a no-wrong-door point of entry. A system with same-day access that defines community-based emergency and urgent care responses and untangles the maze that has been created in the absence of a coherent system. This system must meet the unique needs of the Commonwealth's population across all ages and must be culturally and linguistically appropriate. And, of course, treatment must be evidence-based and be appropriately credentialed.

We want to hear from you! Please join us for a listening session on creating a behavioral health ambulatory treatment system.

When: Wednesday, August 14, 2019 4 p.m. - 6 p.m.

Where: Gloucester City Hall - Kyrouz Auditorium, 9 Dale Ave, Gloucester, MA 01930

Parking: Metered parking is available on the street. There is also a parking lot near by the auditorium

If you need language assistance or a reasonable accommodation to participate, please contact Kathy Chin at Kathy.Chin@umassmed.edu or call 617-886-8324.

If you are unable to attend, written comments and feedback are equally valued and can be submitted via email at bhengagement@state.ma.us.

Please note Spanish translation services will be available at this meeting.
