Small businesses generate growth, innovation, and are essential to the strength of local economies. In recent years, Downtown Framingham has become a hub for entrepreneurs from all over the world — having at least twenty different nationalities among its local business owners.

To recognize the diversity, contributions, and vibrancy that small businesses bring to Framingham, the Framingham Downtown Renaissance (FDR), the MetroWest Regional Collaborative (MWRC), Welcoming Framingham, and the Metropolitan Area Planning Council (MAPC) worked together as part of the MetroFuture Walks & Talks to host the first Tour of Small Businesses in Downtown Framingham.

- Apathy and disenfranchisement, especially among immigrant business owners;
- Disconnect from local government;
- Social problems such as drug consumption and homelessness;
- Poor pedestrian infrastructure;
- Perceptions of the downtown as a dirty and not welcoming place.
Goals of the Event
- Create a space for participants from the public, private, and non-profit sector to connect around issues relevant to Downtown Framingham;
- Showcase how Framingham’s diversity could give the Town a competitive advantage;
- Start the conversation about an upcoming Downtown Framingham Transit Oriented Development study;
- Have town leaders set priorities that directly support the growth of small businesses in Downtown Framingham.

Project Partners
- **Metropolitan Area Planning Council**: MAPC is the regional planning agency serving the people who live and work in the 101 cities and towns of Metropolitan Boston. MAPC’s mission is to promote smart growth and regional collaboration.
- **Framingham Downtown Renaissance**: FDR’s mission is to promote, drive, and implement the revitalization of Downtown Framingham by collaborating with residents, Town of Framingham officials, and private stakeholders supporting a shared vision. They are committed to making Downtown Framingham a great place to live, work and visit.
- **MetroWest Regional Collaborative**: As one of MAPC’s subregions, the MetroWest Regional Collaborative (MWRC) serves the MetroWest region of Eastern Cochituate Aqueducts, Natick, from I-95 to I-495 along the Route 9 corridor. They facilitate inter-local collaborative planning and problem solving to enhance the quality of life and economic competitiveness of the MetroWest region.
- **Welcoming Framingham**: Welcoming Framingham is a community-wide initiative seeking to affirm Framingham as a welcoming place for all. They encourage conversations in an effort to promote understanding among diverse people and celebrate the positive contributions that individuals from various walks of life make to the community.

Outreach to Participants
The focus was placed on inviting a broad spectrum of Framingham leaders to the tour, including Town staff, the business community, service organizations, immigrant advocates, news media, developers, brokers, local colleges, and active citizens. The tour was organized in this manner because collaboration among public, private, and the non-profit sector are key to the successful revitalization of any downtown area. An initial list of 60 attendees was created by FDR, MWRC, and MAPC.

Outreach to Small Businesses
After canvassing over 80% of small businesses in the downtown area, a total of sixteen business owners agreed to participate in the tour. Entrepreneurs were prepared to share their stories and explain why they chose Framingham as a place to invest and grow. A special effort was placed in highlighting how their contributions strengthen the local and regional economy.

Event Description
Over the course of two and a half hours, fifty five town leaders came together to learn about the diversity of businesses in its downtown area; and to hear the stories, challenges, and contributions of these entrepreneurs.
After a brief “Welcome and Introductions,” participants were divided into four color-coded groups and guided through four small businesses along the downtown area (sixteen small businesses in total.) Each group stayed a maximum of twelve minutes in each location before moving on to the next host.
