REGIONAL EV STRATEGY

# US EPA School Bus Rebate Program

- Yesterday, the EPA announced nearly \$1 billion in Clean School Bus Program awards for 389 school districts nationwide.
- 5 school districts in MA awarded 76 rebates totaling \$29.57 million.

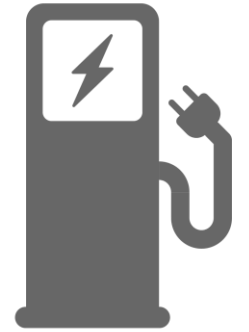

- Fall River
- Lawrence
- New Bedford
- Lower Pioneer Valley Educational Collaborative
- Upper Cape Cod Regional Vocational Technical

- 42 school districts in MA were waitlisted.
- Future EPA funding - grant and rebate programs in early 2023.

# Federal Funding Programs for EV Charging

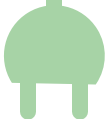

## National Electric Vehicle Infrastructure (NEVI) Program

- Includes \$55-60 million in new formula funding for MA to build direct current fast chargers (DCFC) on EV Alternative Fuel Corridors.
- FHWA approved MassDOT's NEVI Plan on September 14, 2022: <https://www.mass.gov/massdot-nevi-plan>

## Discretionary Grant Program for Charging and Fueling Infrastructure

- Program announcement anticipated in near future.
- Competitive grant program (\$2.5 billion) to strategically deploy publicly accessible EV charging infrastructure along designated alternative fuel corridors.
- At least 50 percent of funds must be used where priority is given to projects that expand access to EV charging within rural areas, low- and moderate-income neighborhoods, and communities with a low ratio of private parking spaces.

# GOOD2GO

Affordable Electric Car Sharing

# Our Mission

Good2Go is the Northeast's first equity-focused, all-electric carsharing program designed to provide clean and private transportation options to communities in the Greater Boston area.

# Why Electric Vehicle (EV) Carsharing?

- Reduces traffic congestion & parking needs
- Reduces Greenhouse Gas emissions
- Introduces EV technology to environmental justice communities
- Reduces parking needs and provides additional space for affordable housing units
- A compliment, not competitor, to public transit
