2. Vendor Questions

Question 1: Can you provide a breakdown of the quantities by municipality.

Answer 1: An estimate form has been attached to CommBUYS as “SS 2027 PW2 Estimates Form – Addenda 4”

Question 2: Is the contractor responsible for loading the material? This will entail the mobilization of equipment prior to T&D to each location. As stated in the specifications document, bidder’s unit prices are to reflect the loading of materials to be disposed of any equipment necessary to complete this action.

Answer 2: The unit price should reflect the language on page 4 of the SS 2027 PW2 IFB Specifications document: *“Basis of payment shall be per ton of material removed and disposed and shall include the furnishing of all equipment, labor and materials necessary to load, haul, and dispose of the stockpiled materials at a licensed disposal site or other permitted processing facility.”*

Question 3: What is the contract start date? The completion date is listed as 12/31/2027, but the start date is not identified.

Answer 3: Once Bidders receive notification of award. Bidders can execute contracts directly with the consortium municipalities. Terms of the contract will continue from the date of execution until the end of the contract term. The following language from the IFB has been cited below:

From IFB Section 7.a. Contracts:

“All Low Bidders and all Participating Member Municipalities will be presented with a Contractual Agreement for Public Works Services for execution and inclusion with their bids. One Contract will result for each Bid Item identified for individual award. Each contract will separately and individually bind each Participating Member Municipality and each Low Bidder. The parties to this Agreement shall not construe the use of a single uniform document signed by a Low Bidder and multiple Participating Member Municipalities as a contract with a single entity, the Consortium. Instead, it shall stand as a contract between each Low Bidder and each Municipal signatory. Scheduling, supervision, inspections, financial transactions, disputes and other contractual matters shall remain the affairs of the individual signatories to which they apply, having no direct or indirect bearing on any other party.”
